# Harmonization of water

*Harmonization of water can be understood as the interconnection of three basic axioms.*

***Water is the source of life***

***Water has a memory***

***Man is water***

**By harmonizing or energizing of water we understand process that aim to bring structure and biological benefit of tap water to the level of natural spring water.**

We were inspired by the visionary ideas of Viktor Schauberger and unique method discovered by Masaru Emoto. Cycloidal centripetal movement of water in combination with vibration of positive information is the main essence of the process that we call harmonization of water.

*Crystal of harmonized water*

## ViaHuman – water as a cure

The first product we've created is a rotary flowing water vitalizer known as a harmonizer. This device combines several other effects in addition to stones, which in result increase the biological utility of drinking water. The development of glass elements of the harmonizer revealed the beauty of handmade glass production and the possibilities created by connecting this material with stones, colours and symbolism.

Later, we started to make carafes, paperweights and candleholders - as inspiration has come.

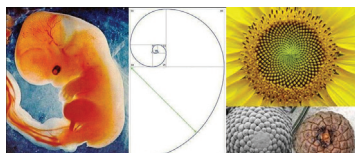

The word "design" for us means a beautiful thing which, apart from appearance, actually serves the purpose for which it was created. We create design things that make everyday human journey more relaxed, calmer and more cheerful.

Each product ViaHuman contains a piece of our creativity, energy and wish to help with respect to the user's personality.

Richard Synčák

# Golden Section, energy of colours and effect of stones

The use of stones as protective amulets has been known since ancient times. In ViaHuman products the structure of their crystalline lattice, together with colour effects according to colour therapy, is combined with the effect of the Golden Section. That is the real „principle of life“ encoded in the shape of both carafes and cups. All these effects then have a harmonizing effect on water.

---

## How colours and stones work in our products

---

- **RED** – colour of courage and assertiveness. **Red jasper** brings health and strength and removes harmful substances from the circulatory system, blood and liver.
- **ORANGE** - the colour of vitality, joy and playfulness. **Carnelian** stabilizes energy, restores vitality, brings a positive attitude to life, motivates for success.
- **YELLOW** - colour of light, freshness, joy, increases cheerful mood and supports thinking. **Tiger´s eye** is a protective stone. It prevents evil thoughts, heals the eye, throat and reproductive organs and helps in the treatment of fractures.
- **PINK** - Pink colour is love, affection, tenderness, softness, devotion, promotes warmth, sensitivity and friendship. **Rose Quartz** is a colour variation of quartz and is often called the stone of heart. It cleanses and opens heart on all levels, brings healing and love to itself. It has a soothing and relaxing effect.
- **GREEN** – it refreshes, regenerates and supports the body's immunity. Stone **Aventurine** protects against geopathogenic zones, connects the mind and emotion and supports perception. It also calms heart pain, reduces thyroid problems, heart problems, treats muscular system and relieves skin problems.
- **TURQUOISE** - it combines the effect of blue and green colours. **Turquoise** is a healing crystal regenerating tissue, positively acting on gout, rheumatism and stomach discomfort. As for the spiritual life it gives strength, helps with depression and fear.
- **BLUE** - raises calming feelings, brings physical and mental balance and reduces fear. Stone **Sodalite** develops the mind, increases self-esteem. It acts as a cleansing of the lymphatic system.
- **VIOLET** – it is perceived as spiritual colour; it is the colour of humility, forgiveness and modesty. **Amethyst** is a stone with a protective force. It has healing and cleansing abilities, it calms, removes fear and anger. It relieves headaches and cures insomnia
- **WHITE-CLEAR** - contains the entire colour spectrum. Its action is therefore holistic and universal. It works at the level where the problem occurs. **Quartz-crystal** is the most effective healing crystal and the strongest power amplifier thanks to its unique spiral crystalline form. It removes imbalance and can be used to solve any problem.

# Flowing water revitalizer

## Premium Harmonizer

- It is a flow revitalizer of tap water, which is placed directly on the faucet.
- Water passes through a labyrinth of swirling spirals shaped according to the principle of the Golden Section.
- Water changes its kinetic energy and is exposed to affirmations, semi-precious stones and shungit.
- Water treated by Harmonizer has a better taste and the ability to detoxify; long-term drinking has a positive effect on health.
- It is a device with simple installation, low maintenance and long life.
- Thanks to the patented construction it does not clog with limescale even in very hard water.
- We provide a 60 days guarantee to a refund for any reason.

## Standard Harmonizer

- It is a device of the same construction, appearance and effects as the Premium version.
- There are different materials used – spiral swirls are made of plastic in this version.

**Boiled rice filled with water. In a sample with harmonized water, we will not find traces of mould even after 36 months.**

**Effect of treated water on the growth of bamboo roots.**
